**Re: You prescribed 362% MORE Schedule II controlled substances than your peers.**

Dear Dr. Provider,

The figures above display the total count (left) and 30-day equivalent (right) of your Schedule II prescribing, compared to the national and state averages of those within your specialty. As can be seen, you prescribed far more – 362% more – than similar specialists within your state.

We hope that you will use the information provided to see if your high prescribing level is appropriate for your patient population. Read on for more information about the methodology used to analyze your prescribing behavior, and to learn what actions to take next.

Sincerely,
